II. MANAGEMENT DISCUSSION & ANALYSIS

ECONOMY :

The year 2011-2012 has also been crucial as the World economy was badly affected due to consistent recession resulting in serious economic slowdown particularly in the West. Under such a dismal scenario, the Indian economy although not declined remarkably did not register the growth and prosperity. Sky rocketing prices of oil, high price of commodities, inflationary trend due to fall in value of rupee and further higher rate of interest have been the major bottlenecks for accelerated growth to enable the Indian economy to survive and emerge as an economic super power the Company has to cope with the global competition.

OVERVIEW :

During the financial year 2011-2012 the Company, in spite of high cost of inputs witnessed the encouraging performance and maintained the shareholder value. The production figure of the Company has shown improvement in own manufactured goods from 7005.290 MT to 11257.752 MT from the previous year.

INDUSTRY STRUCTURE AND DEVELOPMENTS STEEL INDUSTRY OVERVIEW :

The inflationary trend as regards to raw material prices backed with other increased costs, prevailed during the year has affected the financial performance of the steel industry in the country. Efforts are being taken all over the World especially by USA to restore the world economy and industrial growth.

FUTURE OUTLOOK-BRIGHTER PROSPECTS :

The Indian economy grew at 6.5% during the financial year 2011-12. The economy is likely to grow at approx. 8% over the next decade driven by the infrastructure (power, road, railways, ports etc.) and consumption (automobile, real estate etc.) sectors which will result in robust growth in demand for various iron and steel products.

The States of Orissa, Chhattisgarh and Jharkhand which account for majority of the iron ore and coal reserves in the country will remain the most attractive locations for setting up iron and steel manufacturing capacity.

OPPORTUNITIES AND THREATS :

Your Company is poised to seize the opportunities in the Iron & Steel industry (both for steel & intermediary saleable products) through its strengths of locational and logistical advantages, raw material linkages, technology edge and management expertise. These opportunities will be linked directly to the growing demand from the automobile and auto components, infrastructure, construction and power sectors. Your Company's strategic location in Nagpur offer scope for seamless value addition in its manufacturing process from hot metal to stainless steel. Your Company is also well positioned in its conscious adherence to a modular project implementation, thereby enabling ploughing of internal accruals in future projects, thereby reducing costs related to financing. The threats for your Company would come from adverse fluctuations in input and capital costs, foreign exchange variations and taxes & duties. The buoyancy in the Iron & Steel sector has attracted many players, resulting in reduced availability of skilled manpower and contractor workforce. Delay in implementation of project may lead to opportunity loss in revenue generation and rise in costs.

RISK MANAGEMENT :

Your Company has identified major focus areas for risk management to ensure achievement of the organisational objectives and has a well defined structure and proactive approach to assess, monitor and mitigate risks associated with these areas, briefly enumerated below :

- a) Systems - Your Company has implemented ERP, the software for Enterprised Resource Planning and integrated its operations to use best business and commercial practices.
